

ALL OVER AT LAST

Encouraging Reports From All Quarters.

NO MORE CHOLERA IN AMERICA

And Is Fast Abating in the European Cities—Many New Arrivals and All Well—Day Patrol Relieved.

QUARANTINE, Sept. 29.—All returns from the ships at lower and upper quarantine stations are favorable to-day and with Fire Island and Camp Law depopulated and the last of the scandinavian passengers released from Hoffman island, the cholera may be said to be stamped out. The only infected ship left in the lower bay is the Bonanza, the last vessel to arrive with cholera. Her stevedores passengers were transferred to Hoffman island today and the ship was disinfected thoroughly than was possible when the people were on board. At Swineburne island, where all the sick patients, convalescents and suspects are, the condition of affairs is reported to be most encouraging. There are no new cases and the sick are improving.

MEASLES WORSE THAN CHOLERA. On the morning there are a number of cases of measles, and that malady has caused the doctors more trouble than the cholera during the week. In the upper bay a number of ships are detained, most of them being held because they are from Hamburg, but on none of them have any signs of cholera been discovered. The Scandia, one of the infected ships, after fumigations were completed, sailed at 6:45 for Baltimore, where she will discharge her cargo. The Hamburg-American steamer Dana, from Cux Haven, Sept. 18, arrived today. Three passengers, and the Scandia from Hamburg, September 18, arrived today. All were well on board both steamers. The Galia from Liverpool arrived with 103 first and 2nd class cabin passengers, and also reported all well. The tug Gleditsia, from Baltimore, with the police patrol in the lower bay, were relieved from duty today.

DAY OF PERIL PAST.

Gratifying Increase in the Mortality of European Cities.

HAMBURG, Sept. 29.—The number of fresh cases of cholera here today has been 130, or nine more than yesterday; the number of deaths, thirty-four, or nineteen less than yesterday. The number of burials, 149, or seventeen less than yesterday. The hospitals are treating only 158 patients, or 71 less than yesterday. From Altoona, nine fresh cases and nine deaths are reported. The return of the fugitives has now fairly begun and every train brings in many families from other seaports. Houses in the best portion of the city are being opened up, the floors and all trade outside of the harbor districts shows a daily increase. While warning the people that the utmost care in the use of food and drink should still be used, the newspapers congratulate the people upon the fact that the day of peril is past. The work of cleaning, disinfecting and improving the lower quarters of the city is continued with unabated energy and will be prosecuted throughout the winter in anticipation of a slight outbreak next summer.

SCANDIA RELEASED.

Banner Pest Ship Allowed to Proceed On Her Journey to Baltimore.

QUARANTINE, Sept. 29.—The banner pest ship of the Hamburg fleet, the Scandia, Captain Kopf, which arrived from Hamburg, September 29, with a record of thirty-two deaths during the voyage, hoisted anchor at 6:45 and sailed for Baltimore, the port for which she was originally destined. All her passengers who have been on Hoffman island for the last ten days or more today landed on Ellis island. Captain Kopf said that the report of Dr. Kinyon of the marine hospital service who has been busy the past four days disinfecting the vessel and who pronounces her to be now the cleanest ship in the harbor, will enable him to avoid detention in quarantine at Chesapeake bay.

DR. JENKINS OVERSEEN.

NEW YORK, Sept. 29.—Secretary of State Foster, accompanied by Collector Hendricks today about the federal quarantine of vessels bringing immigrants. He instructed the collector to detain the steamship Hermann, released by Health Officer Jenkins, and send her back to the lower bay to be examined by Commissioner Sewell, who will report on the advisability of passing her to her dock.

To Homestead works are under the personal management of H. C. You can also say that there is no truth in the report that our twenty-three inch mill has been closed and the men paid off or that we intend to indefinitely suspend operations at our Homestead plant.
